N IMMIGRATION BACON GIVES VIEWS

ates Will Not Be Hampered Bv New Federal Law.

RAUS SEEN BY SENATOR

retary Assures Georgian that the w Will Not Be Construed So as Hamper Southern States—Sena- Didn't Oppose Amendment.

shington, D. C., Feb. 20.—or Bacon Monday called on Sec- Straus, of the department of merce and labor, and after a full ference expressed the assurance the construction which the de- ment will place upon the immi- ion law, recently passed by the te, will not prevent Georgia and r states from proceeding under South Carolina plan to secure de- ble immigrants.

e main point to be rigidly observ- is that the transactions must be ugh the legally appointed and gnized agent of the state. In his harge of all legitimate means to ect immigration to the south, no t will be made by the department to the source from which such officer receives money to car- these operations. Under this , Senator Bacon is positive there be no violation of the contract laws, and each state can re- immigration to the most desir- class if it wishes.

nator Bacon has stated that his dition to the immigration bill had misunderstood. He did not e the Japanese passport amend- , but declared that if this feat- was presented independently, he ght it would promptly be adopted oth houses.

here were other features in the containing the amendment intro- to solve the Japanese question h he did vigorously oppose, and aid they were as vital in their upon the industries of the south the Japanese problem was to peo- on the Pacific coast. He opposed e haste in rushing the bill ough until these other sections af- ing southern immigration, could given proper attention.

Divorce Statistics.

Chicago, Feb. 20.—A dispatch to Tribune from Washington, says preliminary estimates made by bureau of census as a result of investigation of marriage and di- statistics which began last mer, indicate that the number of ications for divorce filed through- the United States during the 20- r period, from 1887 to 1906, will h the enormous total of 1,400,- . It is estimated that three- rths of the applications have been nted, so that the statistics when mpiled will show that in the period ted, more than a million divorces ve been allowed. On their face, figures indicate a stupendous in- ease, but when the ratio they bear the population is considered, it is t so great though still large ough to warrant the serious con- deration of the American people.

MRS THAW IS RECALLED.

To the Witness Stand by the Defense in the Case.

New York, Feb. 20.—The usual crowd, largely composed of lawyers, filled the court room when the case opened Tuesday morning.

Dr. Britton D. Evans, the defense's alienist, was the first of the characters of the case to appear.

When Mr. Jerome arrived, he passed closed to the alienist but did not speak. Thaw entered the court room when called, with his usual quick step and at once began an animated conversation with Dr. Evans.

A decided surprise was sprung by the defense in recalling Mrs. Evelyn Nesbit Thaw to the stand immediately after court convened.

Mrs. Thaw looked pale and serious as she took her place on the stand. She appeared in the same simple girlish costume that she had worn every day since the trial begun.

She smiled slightly as she caught her husband's eye. Thaw returned the smile and then turned to Attorney O'Reilly, with whom he talked for a minute excitedly. Then he returned to his conversation with Dr. Evans, but for the most part kept his eyes on his wife, only turning occasionally to whisper in the doctor's ear.

COMMITTEE HAD REPORTED

Fixed Sum at $300,000, but the Senate Added $50,000, and the House Concurred—Legislature to Adjourn Saturday.

Montgomery, Ala., Feb. 20.—Both houses agreed to plans by which it is expected that adjournment for the recess will be reached by March 2, in the neighborhood of the end of the thirty-fifth day of work.

As a move in that direction, it was agreed that the two houses will adjourn from Monday to Wednesday and from Thursday to Saturday of this week.

The most interesting work of the day was the effort, in the senate, which proved a success, to increase the appropriation for the common schools $350,000 instead of $300,000, as was reported from the committee on finance and taxation. The house concurred.

Other features of the school effort of the day, in the senate, were bills by Mr. Blackmon, for the state to establish free libraries in schools that are not able to procure them, and by Mr. Reynolds, to provide, in each congressional district, a high school to be located in a town of some county that has no school at this time of the high school grade.

The omnibus salary bill passed the house without opposition and will be sent to the governor at once. By it all salaries in the capitol are raised practically. Heads of departments will receive $3,000 and chief clerks $1,800.

The house also pased the bill to prevent the exhibition of pictures of nude men and women in public other than in art galleries.

In the house the bill to provide for the salaries of town officers was passed, fixing the maximum salary of mayors at $3,600.

The bills for greater Birmingham and for the merger of towns and cities also passed.

The bill to prevent tipping, and one to make the penalty for assault with intent to ravish punishable by death, were reported favorably to the senate.

The election of the trustees of the deaf and dumb school was reported to the senate in a message from the governor and the members of th board confirmed, as follows: J. B. McMillan, G. A. Joiner, W. H. Hurt, M. B. Cameron, W. J. Blykin, T. M. Hobbs, S. E. Greene.

Later it was introduced in the senate by Senator Overman, and referred to a conference committee composed of Representativs Livingston and Littauer and Senators Warren and Culom.

The conference report containing the item was signed Monday afternoon. The whole appropriation for extending foreign trade in American manufacturers is $50,000.

About 6 o'clock Mrs. Strong went out in the back yard and after saturating her clothing with coal oil, set fire to it. The flames were leaping four feet above her head before she was discovered. There was no chance to extinguish the flames and her body was burned past all semblance of humanity. Mrs. Strong has been suffering from a mental malady for several months. She leaves eight children.

He Resisted Arrest.

Collinsville, Ind. T., Feb. 20.—Mayor Parry and Marshal Lynch have been arrested on a federal warrant charging them with murder in the first degree in connection with the death of Thomas McQuirk, an alleged bigamist. They were committed to jail without bail. An unknown woman came to town and claimed McQuirk as her husband, although he declared he had never seen her before. The woman swore out a warrant for McQuirk's arrest on the charge of bigamy. The mayor and the Marshal sought to arrest McQuirk, who resisted and was killed.

PLANS TO SECURE GOOD IMMIGRANTS

Adopted at Big Convention In Macon, Ga.

ATTENDED BY LEADING CITIZENS

President G. Gunby Jordan Calls the First Session of Georgia Immigration Association to Order—To Send Field Corps to European Countries.

Macon, Ga., Feb. 20.—Unanimous plans for a uniform method of securing for the Empire State of the South the best class of immigrants were presented and enthusiastically adopted by four hundred of the most conservative citizens of this state at the immigration conference held here Tuesday under the auspices of the Georgia Immigration association.

The four hundred delegates who were gathered together constituted the representation of the two and a half millions of people who have been awakened to one of the greatest needs of the time.

Prominent leaders of the south, assisted by the wisdom of officials of federal departments, governors, industrial and manufacturing representatives and well known agricultural exponents, met in peace and harmony, to discuss common interests of a common cause.

From the calling of the convention to order by President G. Gunby Jordan in the crowded auditorium until the afternoon session adjourned for the smoker which was given by the Macon Chamber of Commerce, enthusiasm marked every resolution that was adopted and pledged their cooperation to the suggestions made by the various committees.

The conference was called for the purpose of putting the state at large in touch with the business plan of operation of the association in securing the best class of immigrants and to obtain the co-operation and assistance of the state. The purpose of the meeting was realized by the support which was freely offered.

The plan of the future work of the association has been outlined in the report of the committees on resolutions, ways and means, state organization and traffic and transportation.

Macon, Ga., Feb. 20.—The first session of the directors of the Georgia Immigration association, relative to the work of the convention, which began here Tuesday morning at 10 o'clock, was held at 8 o'clock in the evening at the office of Chairman J. A. Betjeman, at the Lanier hotel. Early in the day fully half the members of this body were present, and by evening the larger number were ready to take their place. The session marked the beginning of the conventions. It was an executive session, and the members dealt with the business which is to be disposed of at the sessions Tuesday and Wednesday.

Stayed by His Dead Master.

Columbus, Ga., Feb. 20.—The body of Dozier Huckabee, a white man, was found in the woods, 12 miles north of Columbus, near the Harris county line. He had been shot to death, and it is suspected that he was killed by Gene Bryant, a negro, with whom it is reported he was gambling. The negro made his escape. When the body was discovered it was still being guarded by the man's dog. It is supposed that the faithful animal had been at his dead master's side for hours.

Negro Shoots His Wife.

Augusta, Ga., Feb. 20.—News has reached the city of a probable double homicide at Beech Island, that has greatly aroused the negroes of that part of South Carolina. George McCormick, negro, after a scolding by his wife, shot her twice with a pistol, killing her instantly. He then shot her aged and infirm mother, inflicting a wound believed to be mortal. McCormick escaped, but is being pursued by a posse.

ERY SHREWD BOYS WERE THESE TWO

Marshal Pinkoson Found Many Letters They Had Discarded.

ONE CONTAINED MONEY ORDER

The Letter Was Directed to United States Land Office, and Contained Money Order For $53—Youths Paroled in Custody of Parents.

John Brown, alias Hugh Brown, and Taylor Dixon, the youths who were arrested by Marshal Pinkoson Tuesday afternoon for endeavoring to pass checks made payable to other parties, but who failed to realize on same, have been paroled in the custody of their parents, as they were too young to be committed to this section of the law.

Marshal Pinkoson followed up the case with energy, and succeeded in forcing the boys to admit that they had taken many letters, some of which contained checks. They conducted the officer to their "office," which was located in an old barn, and upon arrival there the officer found an improvised desk, made from a box, upon which rested a shotgun. The desk was equipped with pigeon-holes, a modern letter file, and other furniture, which is evidence that one of the boys had a fair idea of how an office should be equipped.

Marshal Pinkoson was then conducted to a trash box in the rear of the New York Racket, where the boys told him they had deposited the worthless mail. Here the officer found a letter addressed to the United States land office, containing a money order for $53, and several letters addressed to Henry Chubb and Shields Warren, register and receiver of the United States land office, respectively.

GUARDS ARE BUSY.

Are Preparing For Inspection, Which Will Be Held This Evening.

There will be "something doing" in military circles here tonight, as the annual inspection of the company will be held.

Adjutant-General J. C. R. Foster and his staff are expected in the city this afternoon, on an official visit. The Adjutant-General notified Baptain J W. Blanding, through an official circular, several days ago, of the date at which he would arrive, with the result that the company, which was already efficient, has been drilling regularly preparatory for this inspection.

Captain Blanding feels confident that the Guards will come fully up to the standard of the requirements, and that a good and favorable report will be made.

The inspection will be public, and the people of Gainesville are extended a cordial invitation to be present. The exercises will be held at the armory (opera house), beginning about 8:30 o'clock.

THE ELKS' HOME.

Fine Picture Was Taken by James F. Smith for The Sun Wednesday.

With a clear sky and a fine background, Photographer James F. Smith on Wednesday secured a fine picture of the elegant new Elks' building, corner West Liberty and South Pleasant streets, which shows up the buildings and surroundings to a fine advantage, and which demonstrates Mr. Smith's ability as an artist.

The picture was taken for The Sun, and from the photograph a fine half-tone cut will be made. The Home is one of the finest and most modern in the country, and a credit not only to the Gainesville lodge of Elks, but to the city as well.

This view will make a handsome engraving. Every point is clear and well defined, the shades are just right, and altogether the work will appear most artistic to anyone who understands the art of photography.

Brought the Axe Home.

"If there is anything I love it's an honest man, even if he does submit to the 'power of the press' and return stolen articles to their owners," remarked M. B. Saunders, in his usual good-natured manner. "You know, that fellow whom I employed to cut up my wood, loaned him my axe, and who afterward eloped with the axe in his possession, actually brought the axe back home and left it on the woodpile a night or two ago. I believe in advertising, and I frankly believe that fellow read in The Sun of the incident, and he was so afraid he would be apprehended, realizing The Sun's circulation, that he became afraid and brought the instrument of wood amputation back. That fellow was honest in a measure, for if he had not been honest he would have taken my axe and the consequences, too, and I would have been the loser."

Mr. Saunders states that he found the axe on top of the woodpile Monday morning. It had evidently been thrown over the fence sometime during Sunday night.

EAST LYNNE COMING.

This Popular Drama Will be Presented Here on Monday, Feb 25.

That old but favorite scenic production, "East Lynne," which has gained so much popular favor all over the United States, will be presented here on the evening of Monday, February 25, with Dorrit Ashton as Lady Isabel.

In calling attention to his production, the manager points with commendable pride to the fact that he is offering for public approval a play that is not only out of the ordinary rut of so-called scenic attractions, but that in point of dramatic construction the play itself has no peer.

He realized that people are tired of that class of drama wherein the actor utters some stereotyped heroic, and then poses in a strained attitude that says plainly, "Please give me your kind applause." By so doing the lines mean nothing and the plot furnishes no adequate clue to the unraveling of the story; and as a result the play does not please, because the audience wonders "what all the talk was about."

In "East Lynne" the plot is placed in a succinct form, the lines reveal a motive and there is not a single inconsistence in all its construction. It is a play that holds the audience by the beauty of its lines, the simplicity of its plot, and the earnestness of the story. It is a play that wins on its true merit, and has been a success from the beginning.

SCROFULA A FAMILY BLOOD TAINT

Scrofula is not a disease that is acquired, under ordinary circumstances. It is a deep-seated family blood taint, handed down from generation to generation, blighting the lives and sapping the vital forces of innocent persons who have inherited this legacy of disease. Parents who are blood relations or who have a consumptive tendency, or blood disease of any character, are sure to transmit it to their offspring, and it usually takes the form of Scrofula. Swollen glands, brittle bones, weak eyes, sores and eruptions on the body, Catarrh, and often deformities with hip disease, are the principal ways in which the trouble is manifested. In some cases the blood is so filled with scrofulous germs and poisons that from birth the sufferer is an object of pity because of suffering and a total lack of health, while in other instances favorable surroundings and prudent living hold the disease in check until later in life. A deep-seated blood disease like Scrofula can only be reached by the very best constitutional treatment. A remedy is required that can renovate the entire blood supply and drive out the scrofulous and tuberculous deposits. S. S. S. is the greatest of all blood purifiers; it goes to the very bottom of all blood disorders and removes every taint and poison from the circulation, makes rich, healthy blood and cures Scrofula permanently. S. S. S. supplies the weak, diseased blood with the rich, health-sustaining properties it is in need of, and makes this life stream fit to supply every part of the system with strength and vitality. Scrofula yields to S. S. S. because it is a natural blood purifier. Write for book on the blood and any medical advice desired. No charge for either.

WEDNESDAY'S WORK AT THE TABERNACLE

Dr. D. V. Gwilym Delivered His Farewell Sermon.

GEORGE STUART AT NIGHT

He Preached a Stirring Sermon on "Home" Which Was Highly Appreciated—Prof. Brown and Prof. Miller Also Spoke to Good Audiences.

Interest continues to increase in the National Winter Bible Conference, which is now well into its second week at the Tabernacle, and each day the audiences seem to grow larger. A great deal of earnestness and enthusiasm pervades the atmosphere, and indications are that this will be the most gloriously successful Conference we have ever had.

The Wednesday morning service was opened at 9:45 by Prof. J. R. C. Brown, who made a fine address, and delivered his regular lesson on the Bible. Prof. Brown has demostrated that he is a thorough scholar, and his large class are grateful to him for the knowledge of the Book he has imparted in a most practicable and impressive manner.

At 11 o'clock Dr. David Vaughn Gwilym, the eminent Episcopalean divine of New York, delivered his farewell sermon for the season, being the last of a series on "The Epistle to the Romans in Relation to Modern Thought." The entire series have been delightfully bracing from a religious standpoint, and have resulted in great good. Dr. Gwilym has endeared himself to the people of Gainesville, and it was with regret that they bade him farewell until the next Conference. He is not only a pleasing and fluent speaker, a man of earnestness, who has impressed the hundreds of hearers who greeted him regularly every morning.

In the afternoon at 2:30 Prof. R. V. Miller of North Carolina, one of the most thoroughly posted Bible students in the country, delivered a sermon on the Bible, which was well received by the large congregation which greeted the speaker. This is Prof. Miller's second season here, and by his powerful arguments in the cause of Christ, and his impressive manner of speech, he has made many friends.

In the evening Rev. George Stuart preached to his usually crowded house. All that is necessary to attract the public is the announcement that Dr Stuart will preach, as has been evidenced here time and again. He took for his subject last night "Home," being one of a series of three on "Mother," "Home" and "Heaven." On the subject last night he dwelt in eloquence for about an hour, and it is needless to add created a great deal of feeling, as he handled the subject in a masterly manner.

Prof. Butler, the conductor of the choir, is making himself quite popular. He is a thorough musician and instructor, and at every service renders a solo or two.

The services today will be as follows: The regular Bible lecture will be given by Prof. Brown at 9:45 o'clock this morning. Chas. N. Crittenton, the millionaire lay evangelist of New York, is expected in time to preach at 3 o'clock this afternoon, but in the event of his failure to arrive the sermon will be delivered by Evangelist D. B. Strouse. In either event, the congregation will be entertained by an eloquent and impressive speaker. In the evening at 7:30 Rev. George R. Stuart will preach on "Heaven."

DR. GWILYM'S DEPARTURE.

After Ten Days' Engagement Here, Returns to His Northern Home.

After an engagement of ten days at the Bible Conference in this city, Dr. David Vaughn Gwilym, the eminent Episcopal divine, left Wednesday for his home in New York.

Dr. Gwilym, who has proved himself a general favorite here upon the various occasions he has appeared, delivered his last of a series of sermons on "The Epistles to the Romans in Relation to Modern Thought" Wednesday morning, which was, as former addresses of the series, largely attended and greatly enjoyed.

At the conclusion of his sermon Dr. Gwilym told his hearers how dearly he loved Gainesville and its people; how he had anticipated with so much pleasure his visit to the Bible Conference and his old friends, and how he regretted to leave.

"I want to tell you, beloved," he said, "this Bible Conference has proved, since its first session, a God's blessing to Gainesville and her people. It is an institution of high moral teaching, of lofty religious ideas, and an institution which means right and justice to everybody." He prayed God's blessings upon those who were affiliated with the Conference, and concluded with the remark that he felt sure God would answer his prayers for the success of the Conference and its promoters and workers.

Dr. Gwilym stated to his friends that he regretted very much to leave Gainesville. "There is only one fault I have here," he said, "and that is, you treat me so kindly that it is indeed hard to break away. I will always remember Gainesville and its people, however, and hope to visit them again at regular intervals."

Dr. T. F. Thomas had charge of the funeral arrangements.

MR. HATHCOX SUCCESSFUL.

Overtook Chas. Smith and His Daughter, Who Eloped With Smith.

P. I. Hatheox, a well known farmer of Half Moon district, near Newberry, has been the victim of peculiar and trying experiences recently, but everything is again straight, so those who know the circumstances say, and everybody is once more settled "down on the farm." By his experience, however, Mr. Hatheox has evidently concluded that all is not gold that glitters, and also that everything is not exactly as it seems.

The Newberry correspondent of The Sun of last Sunday related an interesting story in which a young man calling himself Chas. Smith, two checks aggregating about $350, which were made by Smith, endorsed by Hatheox and cashed by other parties, a horse and buggy, and last, but by no means least, Mr. Hatheox' charming daughter, figured. The story relates that Smith had "put up" at the home of Mr. Hatheox, gained his confidence, induced him to endorse the checks, cashed the instruments, borrowed the farmer's horse and buggy, stole his daughter and eloped.

Mr. Hatheox, determined not to be outdone, went after the couple, who had leisurely traveled by private conveyance, and succeeded in apprehending them near Jasper. He forgave the couple, sold the horse and buggy, and induced Mr. and Mrs. Smith to return to the parental roof, which they did, and report says are now living unmolested and happily together.

Mr. Smith declares that he has money in the Atlantic National Bank of Jacksonville, and says the failure of the bank to pay the checks is through some misunderstanding, which will be adjusted.

SMITH'S GREATER SHOWS.

The Street Carnival Attracted Large Crowds Wednesday

Smith's Greater Shows, which are appearing here this week under the auspices of the Gainesville Guards, attracted large crowds Wednesday afternoon and evening, and all who attended were well pleased with the various attractions.

The paid shows are all good, but the favorite seems to be the trained wild animals. This attraction is crowded most of the time, and everyone who sees the performance recommends it to their friends.

Manager Smith requests The Sun to announce that no confetti will be allowed to be thrown on the carnival grounds, so ladies and others may not fear being annoyed by this abominable custom.

PLEA OF GUILTY BY TRUST MEN

Unexpected Action by Naval Store Combination.

Savannah, Ga., Feb. 20.—Spencer P. Shotter, J. F. Myers, individuals; S. P. Shotter company, Patterson-Downing company, the Standard Naval Stores company and the Belgian company corporation, in the United States court pleaded guilty to the indictment charging them with conducting a turpentine trust, in violation of the Sherman anti-trust laws, and were fined $5,000 each and costs by Judge Speer.

The indictments against the other defendants were nolle prossed, as it was stated by Assistant District Attorney Akerman that they were not the principals in any of the transactions, but merely employees, who had only executed what they had been ordered to do by their employers. The fines aggregated $30,000.

This action was unexpected. The defendants were notified, through their attorneys, that they might appear to plead.

This turn in the case had not been generally anticipated, though it was known that Mr. Shotter and his counsel had made a trip to Washington to see the attorney general regarding the turpentine trust investigation.

Judge Speer administered a severe lecture to the defendants in passing sentence.

The sentences do not affect, in any way, the American Naval Stores company, recently organized by the consolidation of the S. P. Shotter and the Patterson-Downing company. The business of the consolidated concern is construed as being within the law. Mr. Shotter is chairman of the board of directors of the American Naval Stores company. Its business will be continued just is it was proceeding before the trust prosecution was launched.

Enyeart escaped, but returned and gave himself up. Humphrey was 42 years of age and leaves a wife and one child.

The Story of a Medicine.

Its name—"Golden Medical Discovery" was suggested by one of its most important and valuable ingredients — Golden Seal root.

Nearly forty years ago, Dr. Pierce discovered that he could, by the use of pure, triple-refined glycerine, aided by a certain degree of constantly maintained heat and with the aid of apparatus and appliances designed for that purpose, extract from our most valuable native medicinal roots their curative properties much better than by the use of alcohol, so generally employed. So the now world-famed "Golden Medical Discovery," for the cure of weak stomach, indigestion, or dyspepsia, torpid liver, or biliousness and kindred derangements was first made, as it ever since has been, without a particle of alcohol in its make-up.

A glance at the full list of its ingredients, printed on every bottle-wrapper, will show that it is made from the most valuable medicinal roots found growing in our American forests. All these ingredients have received the strongest endorsement from the leading medical experts, teachers and writers on *Materia Medica* who recommend them as the very best remedies for the diseases for which "Golden Medical Discovery" is advised.

A little book of these endorsements has been compiled by Dr. R. V. Pierce, of Buffalo, N. Y., and will be mailed *free* to any one asking same by postal card, or letter addressed to the Doctor as above. From these endorsements, copied from standard medical books of all the different schools of practice, it will be found that the ingredients composing the "Golden Medical Discovery" are advised not only for the cure of the above mentioned diseases, but also for the cure of all catarrhal, bronchial and throat affections, accompained with catarrhal discharges, hoarseness, sore throat, lingering, or hang-on-coughs, and all those wasting affections which, if not promptly and properly treated are liable to terminate in consumption. Take Dr. Pierce's Discovery in time and persevere in its use until you give it a fair trial and it is not likely to disappoint. Too much must not be expected of it. It will not perform miracles. It will not cure consumption in its advanced stages. No medicine will. It *will* cure the affections that lead up to consumption, *if taken in time.*

District Court In Dilemma.

New Orleans, Feb. 20.—According to a special from Baton Rouge, the district court in that parish finds itself in a dilemma as the result of Judge Brunot's decision in quashing the indictment against Congressman-elect George N. Favrot for the killing of Dr. Harry Aldrich. When Mr. Favrot resigned from the bench on Nov. 8 the court had a grand jury without a judge, and now, with the decision of Judge Brunot, the court has a judge with no grand jury and a new one cannot be drawn until the supreme court has acted upon the state's appeal. A decision by the supreme court is not expected for at least thirty days.

CLERK IS OUTWITTED BY THIEF

Succeeds in Carrying Off Tray of Precious Gems.

Houston, Tex., Feb. 20.—A local jewelry company was robbed of between $50,000 and $60,000 worth of loose diamonds, and up to a late hour Monday no progress toward their recovery had been reported. A stranger entered the store, and asked to have an unmounted diamond, which he had, matched in order to have both mounted for earrings. A box of loose stones was produced by the clerk and they went through them trying to select a satisfactory stone. The stranger did not appear to be satisfied, and said he would send his wife around in the afternoon. He left the store, and as the clerk supposed the box of diamonds was returned to the safe. There was occasion to take the box from the safe again in the afternoon, and it was then discovered that the box that had been returned contained only tissue paper instead of the valuable jewels. It was identical in appearance with the box for which his had been substituted, except being a trifle smaller.

ENJOY EATING.

Good Digestion Can Be Readily Gained With Mi-o-na Stomach Tablets.

It is torment to look upon a tempting dinner and realize that to eat freely means distress and suffering.

Let us tell you how you can enjoy eating, so that the heartiest meals will set well and cause no pain, distress or uncomfortable feeling of fullness.

If you cannot eat and enjoy three good, hearty, satisfying meals a day without any feeling of discomfort, your stomach is weak and needs the strength which Mi-o-na stomach tablets will give it. You cannot afford to delay treatment, for the longer you allow the digestive organs to be weak, the harder it will be to get help.

The remarkable curative and strengthening power of Mi-o-na is attested by the guarantee which J. W McCollum & Co. give with every 50c box: "We return the money if Mi-o-na fails to cure."

If you find that eating well-cooked and properly-chewed food is followed by heaviness and load on the stomach, by bloating, by gulping of acids and wind, by distress, nervousness, headache, trouble to sleep, or by any other symptoms of disordered or weak stomach, you should begin the use of Mi-o-na at once. It is guaranteed by one of the best known druggists in Gainesville to cure all disorders of the stomach, or cost nothing. A guarantee like this means a good deal.

The standpat statesmen at Washington have turned a deaf ear to that petition of Gov. Guild and the Massachusetts Legislature for tariff revision, and the general Republican opinion thinks the Governor should attend to State matters and not try to complicate national affairs on an issue about which so many people are grumbling.

Congress, having wasted the last two months on useless talk mostly on subjects not matter for legislation, will now buckle down to business and rush through the appropriation bills with but slim consideration. There is, however, a method in this madness of the Republican majority of encouraging unnecessary talk, for it allows bills to be sidetracked that might prove troublesome to "the interests" if enacted into law.

The Macbeth-Evans Glass Company has reduced the wages of its workmen 25 per cent in order that "competitors of the company would not have such a tremendous advantage over them." The Macbeth Company factories are non union and equipped with machines which do much of the work formerly done by glass blowers. As the glass industry is protected with enormous tariff rates, it is up to the standpatters to explain how the tariff protects the workmen whose wages have been so greatly decreased, when the cost of living is at the highest point—over 50 per cent higher than it was ten years ago.

Brother Baer, the hard coal baron, is much exercised over the railroad rate legis ation proposed by the Pennsylvania Legislature. He has written a letter warning the Legislature that it will be mischievous to create a State commission to regulate railroad rates, after the plan of the Interstate Commerce Commission, and declares the railroads cannot continue to make improvements and at the same time decrease passenger and freight rates. Brother Baer is probably more frightened than hurt, for when a Republican-controlled Legislature of Pennsylvania passes any law that will curb grasping corporations the millennium cannot be far off.

PEACE AND MORALS ORDINANCE

The much discussed (and in some instances wrongfully cussed) Peace and Morals Ordinance took effect yesterday. We have carefully scrutinized this new law of the city, and fail to find anything in it objectionable to those who favor a proper observance of the Sabbath. It is not the intention of the authorities to make indiscriminate arrests of merchants who accommodate persons really in need of articles of merchandise on the Sabbath, but they must keep their doors closed and not remain open to the public, as has been the custom of one or two in the past.

In order that our readers may be made acquainted with the provisions of the new law we give a synopsis of each section, as follows:

Section one provides a fine not exceeding fifty dollars or not exceeding sixty days' imprisonment for violation of the rules of public decency, either by words or action, the use of loud or obscene language, being drunk or intoxicated, or disturbing the peace in any public or private place.

Section two makes it the duty of the police to take into custody any person found in an intoxicated condition in any of the public parts of the city, and provides a fine not exceeding $25 or not exceeding 30 days' imprisonment.

Section three makes it the duty of hotel, tavern or innkeepers, or the owner or keeper of every billiard table, pool table, bowling alley or place of amusement or recreation, and all persons keeping a public house, to preserve the peace in the day or night time, and failure to do so is punishable by fine not exceeding $50 or imprisonment not exceeding 60 days.

Section four provides a like penalty for disturbance of public worship.

Section five prohibits gambling in any form and provides a penalty not exceeding $50 fine or imprisonment not exceeding sixty days for violation of same, either by persons conducting such gambling, permitting same on their premises, those engaged therein, and those congregated in such places. This is one of the best sections in the ordinance.

Section six provides that any person who resists arrest, or any person who refuses to aid the police in making arrests, shall be fined not exceeding $100 or imprisoned not exceeding sixty days.

Section seven in given in full as follows: "It shall be unlawful for any person or persons to keep open store or dispose of any wares, merchandise, goods or chattels on Sunday, or to sell or barter the same. In case of emergency or necessity, merchants or shopkeepers may dispose of the comforts or necessaries of life, to customers without keeping open doors, and provided, further, that this is not to prevent the circulation nor sale of newspapers and periodicals theretofore printed. Any person or persons violating the provisions of this section shall, upon conviction before the mayor, be fined not exceeding fifty dollars, or by imprisonment not exceeding sixty days"

Section eight refers to indecent exposure of the person in any of the streets or public places, such disorderly conduct being punishable by fine not exceeding $50 or imprisonment not exceeding sixty days.

Persons assembling or congregating in crowds upon the sidewalks and thoroughfares thereby impeding travel, who refuse to disperse after being ordered to do so by the police, under Section nine are subject to a fine of $10 or thirty days in jail.

Section ten makes it unlawful for hotel drummers or hack drivers to cross a designated line at the depots, or for any person to harass travelers or make a noise causing confusion and disturbance, the penalty therefor being a fine of $25 or imprisonment for thirty days.

The discharge of firearms in the city limits, or having deadly weapons concealed about the person, other than a common pocket knife, is provided under Section eleven by fine of $100 or sixty days in jail.

Section twelve punishes minors getting on or off moving trains by fine not exceeding $5 or imprisonment not exceeding ten days.

Section thirteen prohibits houses of ill fame being conducted within the city limits, the renting of premises for such purposes, frequenting or at any time visiting such places, violation of this section being punishable by $50 fine or sixty days in jail. If rigidly enforced this section will cause all lewd characters to "get a move on" and seek new pastures.

Section fourteen provides a fine of $25 or thirty days' imprisonment for the malicious marring or defacing of any sign, extinguishing, breaking or destroying any city light, or the wilful or mischievous throwing of stones.

Section fifteen provides that no person shall ride or drive over the public street known as the court house square at a greater speed than six miles an hour, nor over any other streets at more than eight miles an hour. Violation of this section is punishable by a fine of $25 or thirty days in jail.

The ordinance will be printed in full for distribution.

Stage Dressmaking.

Our plays are for the most part overdressed, with extravagance, vulgarity and inappropriateness obtaining in place of artistic fitness. The new costumes have to some extent frequently undone the results of undress rehearsals, the actresses no longer representing the drama as they did before the dressmaker sent home their gowns, while the variety of their impersonations is swamped by the uniformity of their fashions.—A. W. Pinero in Costume.

Inconsistency.

"What is inconsistency?" asked the curious one.

"Well," responded the wise one, "it is that spirit which moves a woman whose sleeves stop at the elbow to scold her husband because he hasn't any cuffs on."—Chicago News.

The Cause of Many Sudden Deaths.

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs, causing catarrh of the bladder, or the kidneys themselves break down and waste away cell by cell.

Bladder troubles almost always result from a derangement of the kidneys and a cure is obtained quickest by a proper treatment of the kidneys. If you are feeling badly you can make no mistake by taking Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy.

It corrects inability to hold urine and scalding pain in passing it, and overcomes that unpleasant necessity of being compelled to go often through the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases.

Swamp-Root is pleasant to take and is sold by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle of this wonderful new discovery and a book that tells all about it, both sent free by mail. Address, Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

IMITATION PEARLS.

They May Be Detected by the Hole Drilled Through Them.

The means of ascertaining the genuineness of pearls, which are frequently imitated with marvelous skill, is especially important to the layman, even though the jeweler may quickly detect them. Imitations are usually lighter than real pearls and generally are brittle, although some are made solid of fish scales and do not break so easily, while the holes, which in the real pearl are drilled very small and have a sharp edge, are in the false larger and have a blunt edge. As a rule, the imitation pearls are like hollow spheres of glass colored internally with a coating imitating the orient of natural pearl.

The manufacture of these articles embraces two series of operations—the production of the sphere and the introduction of coating. The spheres are produced by the glassblower, who by aid of an enameler's lamp solders the extremity of a tube when the substance is of the right consistency. In this way are obtained very regular little spheres that serve for the composition of the ordinary quality of false pearls.

In the more beautiful imitations the tube employed is slightly opalescent, and the glassblower, besides, gives to the little spheres while they are yet malleable certain slight perceptible inequalities of surface by gently tapping them with a small iron bar. This gives them a still greater resemblance to natural pearls, which are very seldom absolutely regular.—Exchange.

Even From the Mountains

Ballard's Snow Liniment is praised for the good it does. A sure cure for rheumatism and all pains. Wright W. Loving, Grand Junction, Colo., writes: "I used Ballard's Snow Liniment last winter for rheumatism, and can recommend it as the best liniment on the market. I thought at the time I was taken down with this trouble that it would be a week before I could get about, but on applying your liniment several times during the night, I was about in 48 hours and well in three days." Sold by W. M. Johnson.

Short Stay Neighborhoods.

A man who contemplated going into business for himself looked around for a good location. He rejected the advice of two friends who had suggested neighborhoods which they thought desirable.

"I don't like either of the places," he said. "Business can't be good around there. I have passed through those streets many times, and always I have been struck with the frequency with which the names on the shops are changed. That doesn't look promising. Wherever a man finds trade profitable he says; contrariwise, he moves. None of the short stay neighborhoods for me."—New York Post.

Causes of Headache.

People get headache because they do not take sufficient active exercise to keep the blood circulating actively, become excited and often about things that do not concern them at all, neglect daily action of bowels, bathe in cold water without wetting the head, sleep on a low pillow, take too much alcohol, allow the feet to get cold, take iron and quinine when these drugs do not agree with the system.—Pittsburg Press.

The Return.

"I believe," said the cheery philosopher, "that for every single thing you give away two come back to you."

"That's my experience," said Phamley. "Last June I gave away my daughter, and she and her husband came back to us in August."

A Valuable Lesson.

"Six years ago I learned a valuable lesson," writes John Pleasant of Magnolia, Ind. "I then began taking Dr. King's New Life Pills, and the longer I take them the better I find them." They please everybody. Guaranteed at all druggists'. 25c.

100 MEN ARE DEAD

As Result of Gas Explosion in a Coal Mine in Mexico.

Monterey, Mexico, Feb. 20.—A dispatch from Las Esperanzas, Coahuila, says that thirty-nine men are known to be dead, and twelve injured as a result of an explosion of gas in the coal mine at that place.

The list of dead and injured may be greatly extended, as more than a hundred men are believed to have been in the mine at the time of the accident.

The explosion occurred at 7 p. m. in the Conquista mine No. 3. Thirty dead bodies have been taken out, and it is estimated that 75 more are yet in the mine.

Las Esperanzas is located on the line of the International railway, about seventy-five miles from Eagle Pass, Tex. It is the principal coaling center in Mexico, and many men, including a large number of Japanese, are employed.

Common Colds Are the Cause of Many Serious Diseases.

Physicians who have gained a national reputation as analysts of the cause of various diseases, claim that if catching cold could be avoided a long list of dangerous ailments would never be heard of. Do not risk your life or take chances when you have a cold. Chamberlain's Cough Remedy will cure it before these diseases develop. This remedy contains no opium, morphine or other hurtful drug and has thirty years of reputation back of it, gained by its cures under every condition. For sale by all druggists.

Sinking of a Steamboat.

The boat had a cargo of about 1,000 bales of cotton and other merchandise, and was fully insured. None of the crew was injured. The accident was apparently due to a leak in the vessel's hull.

Lame Back.

This ailment is usually caused by rheumatism of the muscles and may be cured by applying Chamberlain's Pain Balm two or three times a day and rubbing the parts vigorously at each application. If this does not afford relief, bind on a piece of flannel slightly dampened with Pain Balm, and quick relief is almost sure to follow. For sale by all druggists.

Greek Shoots a Negro Down.

Savannah, Ga., Feb. 20.—Frank Patterson, a negro, several times on Monday created a row at the place of a Greek fruit dealer, at Broughton and east Broad streets. At about 5 o'clock in the afternoon he made his last apearance there. He turned over a cigar case, in the rough-housing that he started. Sotiros Constantine, a Greek employe, seized a revolver. The negro seized a big knife and started for the Greek. The Greek fired, the bullet striking the floor ricocheting and going through the arm of Bill Flaherty, an innocent bys ander. Constantine fired again. The negro fell, shot through the heart. Constantine is in jail for the killing. It is thought to have been entirely justifiable.

No clew was obtained by the authorities as to who the burglar or burglars were. FLUE CURING IMPROVES TOBACCO LIKE ROASTING IMPROVES GREEN COFFEE

Flue Curing Develops the Stimulating Aroma and Taste Found In Schnapps that Satisfies Tobacco Hunger

There are three ways used by farmers for curing and preparing their tobacco for the market; namely, sun cured, air cured and flue cured. The old and cheap way is called air cured; the later discovery and improved way is called flue cured. In flue-curing the tobacco is taken from the field and suspended over intensely hot flues in houses especially built to retain the heat, and there kept in the proper temperature until this curing process developes in the tobacco the stimulating taste and fragrant aroma found in Schnapps tobacco, just as green coffee is made fragrant and stimulating by the roasting process. Only choice selections of this ripe, juicy flue cured leaf, grown in the famous Piedmont country, where the best tobacco grows, are used in Schnapps and other Reynolds' brands of high grade, flue cured tobaccos.

Hundreds of imitation brands are on sale that *look* like Schnapps; the outside of the imitation plugs of tobacco is flue cured, but the inside is filled with cheap, flimsy, heavily sweetened air cured tobacco; one chew of Schnapps will satisfy tobacco hunger longer than two chews of such tobacco.

Expert tests prove that this flue cured tobacco, grown in the famous Piedmont region, requires and takes less sweetening than any other kind, and has a wholesome, stimulating, satisfying effect on chewers. If the kind of tobacco *you* are chewing don't satisfy, more than the mere habit of expectorating, stop fooling yourself and chew Schnapps tobacco.

Schnapps is like the tobacco chewers formerly bought costing from 75c. to $1.00 per pound; Schnapps is sold at 50c. per pound in 5c. cuts, strictly 10 and 15 cent plugs.
